Application/Control Number: 10/627,529

Art Unit: 3764

This is a first action final of applicants claims submitted in the instant application. These claims where submitted (unamended) in applicants response dated 12/04/06. All claims are draw to the same invention claimed in the earlier filed amendment/remarks dated 12/04/06 and could have been finally rejected on the ground and art of record in the next office action if there had been earlier presented. Accordingly, this Office Action is Made Final.

In response to the applicants arguments directed to the applicability of the additional art reference of Telepko, to address the feature of "a timer that count a time interval before activation of a motor" the examiner considers the disclosure of Telepko (even <u>absent</u> the disclosure of Telepko col. 21, line 31-38) as providing a device and disclosure which make the claim feature obvious. The rejection is considered obvious and maintained as follows:

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-4, 6-9 and 11-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stevens in view of Telepko.

Claims 1-4, 6-9 and 11-19 are rejected for the same reason as set forth in the rejection of the same claims, in the office action dated 2/10/06.

Application/Control Number: 10/627,529

Art Unit: 3764

Comments with respect to Col. 21, lines 31-38 are not being reiterated in this Office Action.

The examiner takes Judicial notice that starting a jump rope session and may other exercise and sport sessions by saying or counting 1-2-3 is known in the art.

Claims 10, 11 and 20-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rudell et al in view of Telepko.

Claims 10, 11 and 20-26 are rejected for the same reasons as set forth in the rejection of the same claims in the office action dated 2/10/06.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Application/Control Number: 10/627,529
